 13/11/24.
 Signature of the Scrum Master

Project Details

Project Title: FreelanceHub:Online Freelance Job Management System

Description : The Freelance Hub ,an Online Freelance Job Management System is an innovative web-based platform designed to facilitate seamless collaboration between clients and freelancers. The platform provides a robust set of features to streamline job posting, application, and project management processes. Key features include job posting and proposal management, direct freelancer access, integrated chat, and an AI-powered chatbot for common queries. Advanced features for premium users include enhanced visibility, certification badges, and customized job alerts , including sudden notifications for new job postings. The platform also offers robust administrative tools for managing users and resolving disputes, along with a suite of project management tools for tracking progress and facilitating communication.

Technologies used: FrontEnd:Html,css,js Backend:Django
